

Product Description

Signi Aluminium's sublimatable aluminum is formulated with a special coating, engineered to be more scratch, chemical and UV resistant than other sublimation materials on the market. The bright white finish enhances images with maximum detail, color depth and vibrancy. The strict manufacturing methods used to produce this material ensures consistent results from sheet to sheet. Enjoy finished work that lasts up to four times longer than photo papers with consistent, high quality finish every time.

Applications:

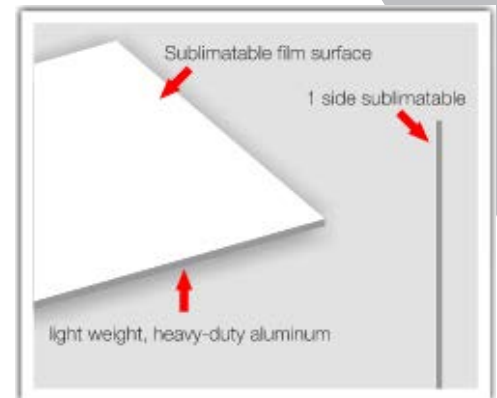

1. Dry-erase boards/menu boards
2. Gifts/Tags/Holiday ornaments
3. Signage
4. Photographic boards

Characteristics:

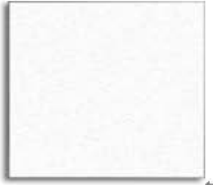

1. UV enhanced to protect against fading in sunlight
2. Will not discolor or yellow with age
3. Bright white surface
4. Scratch resistant, durable finish
5. Non-toxic and stain resistant
6. Superior ease of erasing for "like new" appearance

Features of Aluminum sublimation sheets:

1. Light weight
2. Anti-static, anti-fingerprint
3. Environmental protection
4. Anti-scratch

Performance :

 Gloss White [Ⓟ] SA400 [Ⓟ]	 Pearlized white [Ⓟ] SA401 [Ⓟ]	Ⓟ	Ⓟ
---	---	---	---

Technical Information [Ⓟ]	
Product name [Ⓟ]	White sublimation aluminum sheet [Ⓟ]
Thickness [Ⓟ]	0.45mm, 0.55mm and 0.65mm [Ⓟ]
Normal size [Ⓟ]	1200x600mm, 600x400mm, 610x305mm (24"x12"), 600x300mm; Special size could be made on MOQ base. [Ⓟ]
Finish [Ⓟ]	Satin, matte, brushed, mirror, color coated. [Ⓟ]
Heat transfer	200°C and 40 seconds. [Ⓟ]

parameter [Ⓟ]	
Packaging [Ⓟ]	Paper carton, plywood pallet. [Ⓟ]

Application of aluminum sublimation sheet [Ⓟ]	
Sign board [Ⓟ]	Licence [Ⓟ]
Name plates [Ⓟ]	Labels [Ⓟ]
Tea coasters [Ⓟ]	Photo frames [Ⓟ]
Trophies, awards, [Ⓟ]	Wall arts [Ⓟ]
Badges [Ⓟ]	Information boards [Ⓟ]

Case:
